

SHEEP - The Grower Pellet

We are proud to be a part of growing regional Western Australia and value your support.

Patmore Feeds' Grower Pellet is a highly palatable 6mm pellet specifically designed and balanced to meet the complete nutritional requirements of sheep in Western Australian conditions including added Vitamin E and Selenium.

Available as a 6mm pellet, Patmore Feeds' Grower is ideal for finishing lambs as well as targeted weight gains in a feedlot environment.

- Lambs should be given a minimum 24hrs free access to high quality hay or straw prior to introducing the Grower pellet. (i.e. a full stomach)
- Grower pellets can be introduced ad-lib after 24hrs with hay/straw remaining available.
- Clean fresh water must always be available.

TYPICAL ANALYSIS Dry Matter Basis
